

FCA US LLC Toledo Assembly  
Complex, Toledo, Ohio

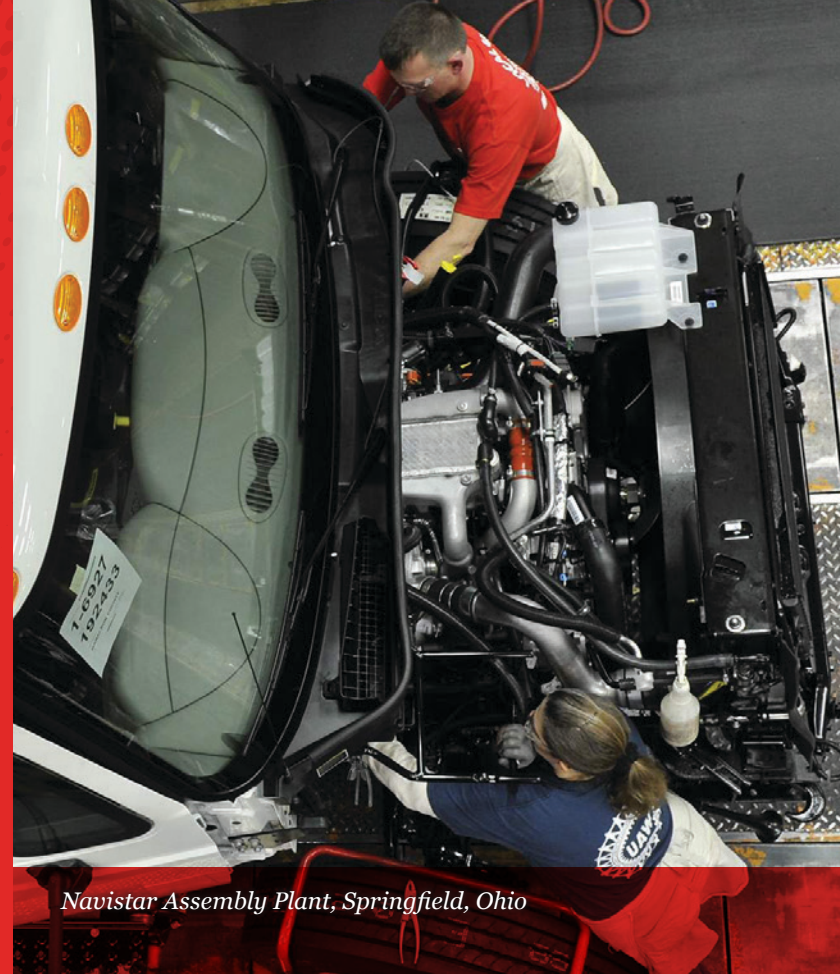

An Automotive Powerhouse

# The Ohio Automotive Advantage

Ohio's automotive advantage translates into real-world strategic value for companies. A large auto-specific workforce of over 108,000 individuals is among the largest in the Midwest; with both seasoned professionals and skilled newcomers who build quality into products. A full, in-state automotive supply chain and a location amid a concentration of automotive establishments in North America, offer accessibility to customers and suppliers, ultimately increasing speed to market and minimizing risk of supply disruptions. In Ohio, companies partner with each other, education, government and research entities to strengthen the position in the industry. Ohio is an automotive powerhouse. Come be a part of it.

Navistar Assembly Plant, Springfield, Ohio

# Ohio is a Well-Known Authority in the Automotive Industry

## Ohio's people and the companies where they work, design and make what moves the world.

In Ohio, innovation comes naturally. It is where the gears in an automobile turn just as much as those in the minds of automotive professionals. Every day, Ohio's automotive industry is working toward a faster, lighter, safer and more stylish future. Ohio is where companies can take an idea, make it tangible and test its limits. It is where Honda first chose to establish its U.S. home and continues to have a significant presence. The only thing that runs deeper than generations of automotive expertise is the collective pride in moving the industry forward. Every day, automotive advancements in Ohio have a global impact. So, when you think automotive, think Ohio.

In Ohio, companies can:

- **Find skilled, experienced employees.** Ohio's large, experienced and well-trained automotive workforce means companies can find the talent they need.
- **Access to more customers and suppliers.** Ohio's central location within the North American automotive supply chain helps reduce transportation costs. Ohio is also home to seven light vehicle OEMs, two commercial vehicle OEMs, and the iconic Airstream company.
- **Seize a competitive business climate.** Low taxes and healthy state finances encourage investment and reduce the cost of doing business.
- **Innovate through collaboration.** A dedication to collaboration increases the opportunity for companies to make improvements and facilitate new discoveries.

## The Full Supply Chain

In Ohio, you will find a full end-to-end supply chain. When you're here, you're in good company.
