

Enable Injections, Cincinnati, Ohio

**Embracing Healthcare Innovation,
Improving Care for All**

Researchers, Thought Leaders and Entrepreneurs Collaborate on Medical Innovation to Improve Patient Care Worldwide

Ohio's healthcare ecosystem has accelerated innovation dramatically in recent years, with researchers, care providers, entrepreneurs and investors working together across the state to develop breakthroughs, treat hundreds of diseases and improve quality of life for patients around the world.

Innovations in gene therapy at Nationwide Children's Hospital in Columbus, cardiac care at the Cleveland Clinic and pediatric care at Cincinnati Children's Hospital are contributing to a sector that is attracting world-class researchers, entrepreneurs and investors. Cutting-edge medical device and health-tech companies are emerging in Ohio, while international companies are choosing to expand in the state to develop and commercialize healthcare solutions.
