**Putting Our Nation's Military First**

# Proudly Supporting Our Nation's Military & Federal Installations

Ohio is home to an array of federal & military installations contributing **\$39.9 Billion** to the overall economy. Surrounding those installations is an industrial base that contributes over **\$6.81 Billion** to the economy.

Ohio is a military & federal employee friendly state – welcoming personnel & family to be stationed in Ohio.

- ★ Personnel assigned to Ohio love Ohio and often choose to stay after their service is over.
- ★ We have a corresponding civilian workforce around these bases.

JobsOhio reinforces the importance of the military & federal installations in Ohio by leveraging existing programs for the benefit of the military.

- ★ Supportive role & advocacy – filling a gap.
- ★ State of Ohio. Supportive team; creative problem solving.

## Ohio Missions We Support

### Wright-Patterson Air Force Base

Economic Impact: \$9.89B  
 \*Gross Output: \$16.75B  
 Total Employment: 81,733

### Department of Veterans Affairs Medical Centers

Economic Impact: 4,323.23M  
 \*Gross Output: \$7.24B  
 Total Employment: 44,055

\*Gross Output = Economic Activity

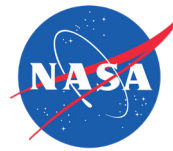

### The Ohio National Guard

Economic Impact: \$1.12B  
 \*Gross Output: \$1.9B  
 Total Employment: 24,021

### The Youngstown Air Reserve Station

Economic Impact: \$137.5M  
 \*Gross Output: \$225.15M  
 Total Employment: 2,354

### NASA Glenn Research Center

Economic Impact: \$1.1B  
 \*Gross Output: \$1.8B  
 Total Employment: 8,974

# Innovation to Keep the U.S. Ahead

Federal research agencies, businesses, and top universities in Ohio are doing massive amounts of research and development to support U.S. missions.

From hypersonic technology to Advanced Air Mobility, Ohio is helping the US. military innovate.

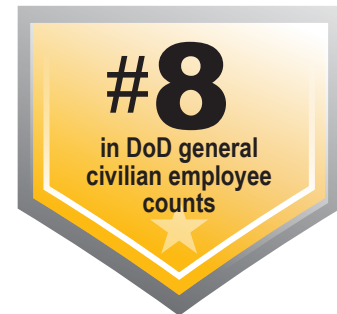

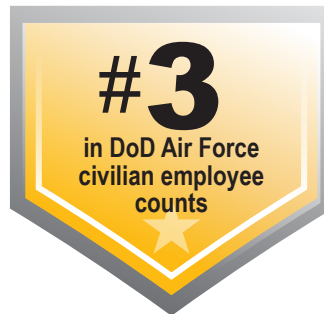

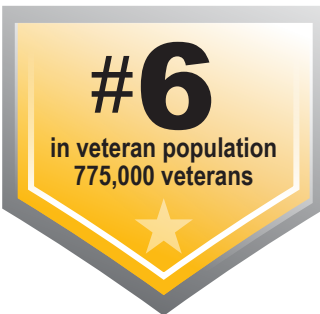

## Agility Prime

Agility Prime is a non-traditional program seeking to accelerate the commercial market for Advanced Air Mobility vehicles. Ohio is a leader in autonomous mobility and is uniquely positioned to support the Agility Prime mission because of its smart mobility infrastructure, proximity to Agility Prime leadership, Air Force testing capabilities, airworthiness expertise at Wright-Patterson Air Force Base, as well as leading-edge research expertise across the state. The Springfield-Beckley Municipal Airport is home to the Ohio Unmanned Aircraft Systems (UAS) Center and SkyVision, a UAS technology that can fly beyond-visual-line-of-sight (BVLOS). The Federal Aviation Administration granted AFRL a certificate of authorization to fly and test BVLOS technology. Ohio's UAS and BVLOS efforts are award-winning and currently serving Agility Prime.

## Ohio is a Department of Defense “Defense Manufacturing Community”

Ohio is developing the Industry 4.0 workforce of the future. Recognized by the DoD for its manufacturing excellence, Ohio is offering Industry 4.0 technical assistance and workforce training for small- and mid-sized defense manufacturers, with a focus on the aerospace and ground vehicle sectors.

## Supporting Our Nation's Missions

Ohio provides incredible services incentives for industry partners in defense and civil space to continue to grow and entice out-of-state companies to relocate, including:

- Workforce development
- Site selection
- Research and development

From innovative companies to staple military and federal installations, important work is happening in Ohio contributing to our national defense and space exploration goals. In Ohio, you can work with thousands of suppliers and partner with Agility Prime companies. You can collaborate with top universities doing research and development for the military and NASA. Private companies in Ohio can compete for federal contracts, connect with military installations, and support nearby military and NASA customers.

Innovation, industry partnerships, talent, and a statewide dedication to our nation's military and federal installations make Ohio ideal for supporting missions and people that serve our country.

**3,260+** Ohio defense contractors fulfilling **291,000+** contracts

Home to **GE Aviation**, the world's largest producer of jet engine technology.

Home to the **only heavy armor plant** in the U.S.

Ohio's military and federal sector employs over **90,000 Ohioans** across the state.

# Ohio's Military and Federal Sector Spans the State

Ohio has military and federal installations and companies that support a variety of national defense and space missions. This includes missions from all branches of the Department of Defense (DOD) – Navy, Air Force, Army, and Coast Guard – as well as the DOD's Fourth Estate Functions, including the Defense Logistics Agency, Defense Finance Accounting Service, and Defense Supply Center Columbus. Additionally, Ohio enjoys a significant presence of NASA and Department of Homeland Security functions and a vast number of veterans through extensive Department of Veterans Affairs centers. Combined, these departments account for 82.58% of all federal jobs in Ohio.
